On behalf of the newly opened Department of Digital and Blended Psychosomatics and Psychotherapy at the University Hospital Basel's Psychosomatics department, we cordially invite you to our symposium entitled «Navigating the Future of Mental Health Care: The Role of Digital Innovations and Generative Artificial Intelligence». This event is designed to explore the expanding horizon of digital and blended approaches in mental health care, focusing on the integration of generative artificial intelligence (AI) and large language models (LLMs) within psychotherapeutic and psychosomatic medicine practices. Our symposium aims to delineate the boundaries and unlock the potential opportunities that these innovations present, fostering a comprehensive dialogue on their responsible integration into clinical settings.

Program:

14.30 – 15.00	Opening onsite registration
15.00 – 15.10	Welcome and greetings
15.10 – 15.40	«Transformative Technologies: Navigating AI's Promise and Peril in Psychosomatics and Psychotherapy» Gunther Meinlschmidt
15.40 – 16.10	«Optimizing Internet-delivered Cognitive Behaviour Therapy: Implications for Clinical Practice» Heather Hadjistavropoulos and Marcie Nugent
16.10 – 16.40	Break
16.40 – 17.10	«AI & I: The Abilities of Generative Artificial Intelligence in Mental Health» Zohar Elyoseph
17.10 – 17.50	«Ethical, Conceptual and Epistemic Challenges of Conversational AI in Mental Healthcare» Jana Sedlakova
17.50 – 18.25	Panel discussion
18.25 – 18.30	Closing remarks
18.30	Apéro
